

PRE-HARVEST COMMUNICATION

2026/27 WINTER GRAIN SEASON

Harvest intake arrangements, silo services, tariffs,
grain quality requirements and producer support

IMPORTANT

Please read this document before delivering grain. Ensure that delivery instructions, storage agreements and driver instructions are in place before the first load arrives.

Agrimark Grain harvest intake guide

Dear Client,

This guide brings the key 2026/27 intake arrangements into one clear reference document so that deliveries can be planned, received and allocated as efficiently as possible. Please share the relevant requirements with your farm team, transporters and drivers before harvesting starts.

Agrimark Grain remains committed to reliable service, accurate administration and practical support throughout the season.

We wish you a safe and successful harvest.

Kind regards

LOUIS COETZEE

OPERATIONS MANAGER: GRAIN & SEEDS

Before your first delivery

Action	What you need to do	When
Sign the required agreements	Complete a Grain Storage Agreement. Where grain is sold to Agrimark Grain, also complete the applicable purchase contract.	Before first delivery
Confirm delivery instructions	Provide grain delivery instruction with every load and brief drivers on contract allocation and downgrade decisions.	Every load
Confirm commodity and silo capacity	Contact Agrimark Grain before delivering canola, oats, triticale, lupins, rye or barley.	Before dispatch
Prepare vehicles	Ensure bins are self-unloading, tailgates operate correctly and oil leaks are repaired.	Before harvest
Use the portal	Confirm contracts, stock, transfers, certificates and account information online.	Throughout season

KEY TARIFF DATE

Wheat daily storage is charged from 19 November 2026 until transferred, withdraw or the applicable storage cap date, whichever occurs first. Transfer contracted grain from private storage to the relevant contract promptly to avoid unnecessary storage charges.

Contents

1. Silo tariffs and storage options
2. Wheat intake, grading and delivery instructions
3. Other grains and available storage locations
4. Vehicle, unloading and food-safety requirements
5. Moisture, mass adjustments and cleaning costs
6. Portal
7. Payments and settlement arrangements
8. Levies applicable to winter grain
9. Grain marketing services
10. Seed opportunities and services
11. Agrimark Grain contact details

HOW TO USE THIS GUIDE

Use the action summary for planning, the tariff and technical sections for operational decisions, and the contacts section when you need help. The signed storage agreement and applicable legislation remain authoritative where they prescribe contractual or statutory requirements.

1. Silo tariffs and storage options

ALL TARIFFS EXCLUDE VAT

The rates below are stated per metric ton and exclude VAT. Refer to the full Agrimark Grain tariff schedule for commodity-specific charges not listed here.

Wheat tariffs for 2026/27

Charge	Tariff / basis	Billing or application
Handling	R68.00/t	Invoiced at the end of December 2026
Daily storage	R1.48/t/day	Charged from 19 November 2026 and invoiced end of December 2026
Electronic Safex/Silo certificate	R4.60/t	Charged when an electronic Safex/Silo certificate is issued
Storage cap date (excl Vredenburg)	15 May 2027	No storage costs from 16 May until 30 September 2027
Vredenburg storage cap date	31 March 2027	No storage costs from 1 April until 30 September 2027
Daily storage (previous-season stock)	R1.48/t/day	Applicable from 1 October 2026

With SAFEX certificates, the applicable SAFEX day storage rate is charged from the date of issuance of the certificate until date of cancellation / transfer and is payable by the transferee of the certificate.

Contracted grain held in private storage must be transferred to the relevant Buyer's Contract as soon as possible, before **19 November 2026**.

SILO TARIFFS FOR THE 2026/2027-SEASON

	SERVICE DESCRIPTION	Grain	Description	2026/27
1	Handling Fee	Wheat	All silo's and bunkers	R68,00 per ton
		Lupins, Oats, Triticale, Barley, Rye	Where applicable	R68,00 per ton
		Maize 2026/27 (1 May 2026 - 30 April 2027)	Where applicable	R60,00 per ton till 30 Apr 2027
2	Storage Costs	Wheat	from 19 Nov 2026	R1.48 per ton per day
			Limit Date: All silo's and bunkers excluding Vredenburg	15 Mei 2027 (Vredenburg Silo - 31 Maart 2027)
			Safex certificate	Safex tariff per ton per day for 2026-27 from issued date
		Lupins, Oats, Triticale, Barley, Rye	from 19 Nov 2026	R1.48 per ton per day
			Limit date	15 April 2027
		Canola	Year tariff (including handling fee)	R300,00 per ton
		Maize 2026/27 (1 May 2026 - 30 April 2027)	Day tariff	R1,15 per ton per day till 30 Apr 2027
			Year tariff (excluding handling fee)	R100,00 per ton tot 30 Apr 2027
3	Transfer tariff after 30 September	All grain, excluding maize	All silo's and bunkers	Day tariff for 2026/27-season resume from 1 Oktober 2026
4	Determination of mass, sampling, grading (R/ton)	All grain	Loads not delivered	On request
5	Determination of mass	All loads	Per axle with a maximum of 4 axles	R43,48 per axle
6	Grading of sample excluded falling number:	All grain	Grainsample provided by client	On request
7	Falling number	Wheat	Grainsample provided by client	R117,39 per sample
8	Cleaning of grain (Goldsat cleaning machines)	Oats, Triticale, Barley, Rye	Graafwater, Ceres, Vredenburg, Eendekuil	R500,00 per ton
9	Cleaning of grain (Goldsat cleaning machines)	Lupins	Graafwater, Ceres, Vredenburg, Eendekuil	R515,00 per ton
10	Cleaning of grain (Silo cleaning machines, handling included)	Wheat, Rye, Oats, Maize	All silo's excluding Vredenburg, Graafwater, Ceres	R155,00 per ton
11	Bagging of bulk grain (Tariff exclude bag costs)	Wheat, Oats, Maize, Rye, Sweet Lupins	On request	On request
12	Issue of paper silo certificates at the request of customer		Admin Office Malmesbury	R3,30 per ton
13	Issue of electronic silo certificates on the request of client	Wheat	Admin Office Malmesbury	R4,60 per ton
14	Stock transfers from private storage to marketing contract	All grain	Admin Office Malmesbury / Porterville	Free
15	Stock transfers between grainbuyers/-owners	All grain	Admin Office Malmesbury	R3,30 per ton
16	Consolidation fee	All grain	Admin Office Malmesbury	Free
17	Stock Transfers (Swops)	All grain	Admin Office Malmesbury	Free
18	Drying of grain		with 0,50%	R175,00 per ton
			with 1,00%	R185,00 per ton
			with 1,50%	R195,00 per ton
			with 2,00%	R205,00 per ton
			with 2,50%	R215,00 per ton
			with 3,00%	R225,00 per ton
19	Aeration of wheat:	Porterville; Riebeek Wes; Ruststasie; Klipheuwel and Malmesbury	13,1 - 14,0%	R50,00 per ton
			14,1 - 15,0%	R68,00 per ton
20	Aeration of Canola:	H/Hof; R-Wes; Darling; K/Heuwel; Malmesbury	10,1 - 12,0%	R68,00 per ton
21	Hiring of storage space	All grain	Landplaas, Eendekuil, Porterville, Malmesbury, Ruststasie, Vredenburg	Negotiable
22	Outloading grain outside normal working hours	All grain	All silo's and bunkers	Negotiable
23	Fumigation of loads Grain dispute handling	All grain	Labour costs	R650,00 per hour
			Travel costs	R7,50 per km
			Fumigants	Cost price plus 15%

- Notes:**
1. Handling fee to be invoiced on delivery.
 2. Grain stock on Storage contracts, will be invoiced monthly with the storage costs. Grain stock on certificates will be invoiced for storage costs on submission, cancellation or transfer of such certificates
 3. Tariffs valid till 30 September 2027 (excl. tariffs for Maize valid till 30 April 2027)
 4. All Tariffs are VAT excluded

2. Wheat intake, grading and delivery instructions

Bread wheat

Bread wheat is graded in accordance with the Agricultural Product Standards Act, 1990 (Act 119 of 1990), as amended and amended up to the date of the latest publications in the Government Gazette. Hectolitre mass is determined on a screened sample.

Hektolitre mass	Protein %			
(kg/hl)	≥ 12.5	12.4 – 11.5	11.4 – 10.5	10.4 – 9.5
≥76.0	SG	B1	B2	B3
74.0 – 75.9	B3	B3	B3	B3

Class Other Wheat

If wheat does not comply with the grading regulations of Bread wheat, Agrimark Grain will take it as a Class Other Wheat with grading restrictions as set out in the table below. Hectolitre mass is also determined on a screened sample.

Hektolitre mass	Protein %					
(kg/hl)	≥ 12.5	12.4 – 11.5	11.4 – 10.5	10.4 – 9.5	9.4 – 8.5	8.4 – 7.5
72.0 – 73.9	KA	KA	KA	KA	KA	KA2
70.0 – 73.9	KA2	KA2	KA2	KA2	KA2	KA2

Feeds

If wheat does not comply with the grading regulations of Bread wheat or Class Other Wheat, Agrimark Grain will take it as a product “Feeds” regardless of its Hectolitre mass, Protein and Screenings content. However, the moisture limitation remains the same as in the case of Bread wheat and Class Other Wheat.

CHEMICAL RESIDUES

Unregistered agricultural chemicals or residues can create serious food-safety and financial consequences if contaminated grain is mixed with other stock. Inform the Depot Manager before delivery if contamination is suspected.

Agrimark Grain reserves the right to test delivered loads.

Delivery instructions and contract allocation

- **Every Load:** Provide complete delivery instruction. Grain delivery instruction books are available at all grain depots.
- **Multiple contracts:** Clearly identify the contract against which each load must be allocated.
- **Completed contract:** Once the required tonnage has been reached, additional loads or portions are allocated to the next oldest contract.
- **No open contract:** Deliveries are automatically received as private storage once all contract obligations have been met.
- **Downgrades:** Drivers must know whether KA, KA2 or Feed Grade loads may be delivered. Without clear instruction, the load will be returned.
- **Delivery times:** Standard harvest delivery hours are Monday to Saturday, 07:00 to 19:00. Hours may be adjusted according to local harvest conditions and client needs. Depot-specific changes will be communicated by SMS or WhatsApp. Agrimark Grain will accommodate delivery requirements as far as reasonably possible.

PLAN FOR PEAK DAYS

Please check all communications from the relevant depots before grain is delivered, especially during rain showers, peak intake periods, or when commodities with limited capacity are being delivered.

Agreements, transfers and certificates

All clients delivering grain must sign a Grain Storage Agreement in advance. Clients selling grain to Agrimark Grain must also sign the applicable Wheat Purchase Contract.

Private-storage grain may be transferred to a contract or a silo certificate on written instruction from the client, either at the nearest silo or through the Agrimark Grain Portal.

3. Other grains and available storage locations

Bulk-storage availability differs by depot and commodity.

Contact Agrimark Grain before delivering so that capacity and system setup can be confirmed.

Commodity	Receiving location(s)	Important condition
Oats	Pools Silo	Minimum 49.0 kg/hl hectolitre mass
Triticale	Darling Silo	Confirm capacity before delivery
Sweet lupins	Darling, Eendekuil and Piketberg	Confirm capacity before delivery
Canola	Halfmanshof, Riebeek Wes, Malmesbury, Klipheuwel and Darling	A valid industry passport is compulsory

Canola private storage capacity

Silo	Available tonnage
Halfmanshof	1 952 t
Riebeek Wes	774 t
Klipheuwel	8 000 t
Darling	1 054 t
Malmesbury	2 000 t

CAPACITY ALLOCATION

Private-storage canola capacity, excluding SOILL deliveries, is allocated on a first-come, first-served basis. A valid industry passport is required.

For other storage requirements, contact Awie Kriel.

For the delivery of oats, triticale, sweet lupins, feed barley or canola, contact Alisha Swanepoel in advance so that the commodity can be received correctly on the system.

4. Vehicle, unloading and food-safety requirements

- **Trailer Bins:** Bulk bins should allow grain to flow freely and must open and close without difficulty.
- **Oil leaks:** Repair leaks before delivery to prevent grain contamination and food-safety incidents.
- **Driver briefing:** Drivers must understand the delivery instruction, contract allocation and action required if a load is downgraded.
- **Legal loading:** Vehicles must comply with the National Road Traffic Act, 1996 (Act 93 of 1996) and applicable axle and gross-mass limits.
- **Proof of lawful loading:** Transporters must provide written proof of lawful loading mass where required.
- **Overloading prevention:** Senders and receivers must take reasonable steps to prevent overloaded vehicles from being loaded or accepted.

5. Moisture, mass adjustments and cleaning costs

Standard wheat mass adjustment

Screenings content, normal moisture losses and impurities	Mass adjustment
0.0% to 2.0%	0.5%
2.1% and above	Adjusted to 1.5%

Additional cleaning costs

Screening content	Additional treatment
7.6% to 10.0%	Mass adjustment plus R55/t cleaning cost
10.1% to 12.5%	Mass adjustment plus R100/t cleaning cost
12.6% to 15.0%	Mass adjustment plus R125/t cleaning cost

Because most silos have cleaning machinery, wheat with screening content above 3,0% may be accepted, subject to the applicable adjustments, cleaning charges and operational capacity.

Moisture

Silo(s)	Maximum moisture - intake arrangement
Darling	Wheat between 13.1% and 16.0% may be received where drying capacity is available.
Porterville, Riebeek Wes, Ruststasie, Malmesbury and Klipheuwel	Wheat up to 15.0% moisture may be received where aeration capacity is available.

BEFORE DELIVERING WET WHEAT

Confirm acceptance, capacity and drying or aeration costs with the relevant silo before delivering wheat above 13,0% moisture. Acceptance is subject to available capacity.

6. Portal

Agrimark Account & Grain Portal

Use the Agrimark Operations Account & Grain Portal for live account, contract and inventory information:
Visit Online at <https://www.agrimark.co.za/login> or **download the Agrimark Mobile App**

Download the Agrimark Mobile App

Scan the QR code below to get the app

Portal content	Information and services available
Grain	Delivery summaries and detail; stock reports; signed contracts and deliveries per contract; yield per hectare; settlement statements
Account	Account limits; monthly statements; purchase information; invoices, incl. silo costs
Grain requests	Request to Issue or cancel outload instructions, stock transfers and issue safex/silo certificates

Registration forms are available from financialservices@agrimark.co.za or grainportal@agrimark.co.za.
For assistance, contact your Credit Manager or Bertie Pretorius on 022 482 8165.

7. Payments and settlement arrangements

- **Weekly payments:** Agrimark Grain contract payments are paid electronically on a weekly basis from the Malmesbury office.
- **Completed obligations:** Payment is made only once the delivery obligations for the relevant contract have been finalised.
- **Friday cut-off:** Transfers from private storage to contracts must be completed by **Friday at 12:00** to qualify for the following week's payment.
- **Settlement against Agrimark accounts:** Amounts due to Agrimark accounts are automatically applied against the client's Agrimark account, unless alternative arrangements are made with Agrimark Financial Services. Alternative settlement arrangements from previous seasons must be renewed each year.

8. Levies applicable to winter grain

Grain SA (GSA) – Voluntary

Agrimark Grain assists Grain SA with levy collection. Authorisation forms are available from the Malmesbury office or the nearest depot. Existing written authorisations remain in place unless changed by the client in writing. This levy shall be applicable to all grain produced within the Republic of South Africa and shall be charged at the **first point of delivery** of such grain.

Commodity	Levy, excluding VAT
Wheat, Oats, Barley, Lupins	R5.10/t
Canola	R7.00/t

Breeders and technology (SACTA) – Statutory

The statutory measure supports breeding research functions and earmarked for commercial breeding activities by seed companies based on their performance and utilization in the seed market and levied at the **first point of trade**.

Commodity	Levy, excluding VAT
Wheat	R35.00/t
Barley	R35.00/t
Oats	R35.00/t
Lupins	R35.00/t

South African Winter Cereal Industry Agency (SAWCIA) – Statutory

The statutory measure supports winter-cereal information, research and transformation functions and levied at the **first point of trade**.

Commodity	Levy, excluding VAT
Wheat	R13.40/t
Barley	R13.40/t
Oats	R11.20/t

9. Grain marketing services

Agrimark Grain aims to remain a leading agricultural partner to producers by actively supporting the marketing of wheat and other grains. The market changes continuously, and a range of pricing and contracting alternatives is available according to client needs and market conditions.

- **Daily prices:** Agrimark Grain distributes available prices to clients via SMS and WhatsApp. Contact the grain trading team if you are not receiving the daily message.
- **Wheat pricing options:** Discuss fixed price, deferred price and other available marketing alternatives with the grain trading team.
- **Canola pricing options:** Discuss final price or minimum price options with the grain trading team.
- **Other commodities:** Oats, triticale, feed barley and sweet lupins are purchased on an ad-hoc basis.

SPEAK TO US EARLY

Early engagement helps Agrimark Grain match your expected crop, quality, preferred pricing method and delivery plan with available market opportunities.

10. Seed opportunities and services

Seed orders and collection

- **Order deadline:** Place seed orders by 31 December 2026 at our seed depots in Porterville, Malmesbury, Darling, Eendekuil, Ceres or Graafwater. Please direct all enquiries to Charles Williams (see contact details attached)
- **Early collection:** Collect seed as early as possible. Selected cultivars may be available before the end of February 2027.
- **Returns:** Limited surplus seed may be returned until 30 June 2027 at the seed price less a 10% handling fee. Feed grain is not accepted for return.
- **Quality concerns:** Report quality concerns immediately after receipt and before the seed is planted.

Cleaning and treatment services

Agrimark Grain cleans and treats farm saved seed at Porterville, Malmesbury, Eendekuil and Darling. Orders should preferably be placed with Charles Williams before 31 December 2026. Services include cleaning, insect, fungicide treatment and the packaging of peas, barley, oats, wheat, triticale and lupins.

Why certified seed matters

Agrimark Grain certified seed is propagated annually by selected seed growers in accordance with SANSOR requirements and uses early-generation source material. Younger-generation, cultivar-pure seed provides greater confidence in varietal purity and agronomic traits, including disease resistance. Because losses associated with poor-quality seed cannot be corrected later in the production cycle, producers are encouraged to use certified seed for at least part of the crop.

THE PRODUCER UNDERTAKES TO PURCHASE THE SEED SPECIFIED HEREIN ON THE TERMS AND CONDITIONS SET OUT BELOW
AT THE APPLICABLE PRICES FOR THE SEASON, AS DETERMINED LATER BY AGRIMARK GRAIN.

Terms and Conditions

Agrimark Grain undertakes to do everything in its power to fulfil this order, but is not obliged to supply the seed in exact quantities.

The producer is obliged to take delivery of the ordered seed, unless Agrimark Grain is unable to supply the seed by planting/sowing time.

The cultivar choices in the order may be amended by the producer until 31 December 2026. However, the chemical formula may not be amended at a later stage.

Seed Order 2026/27

Please submit on or before 31 December 2026.
